

Summer meals served this summer.

July 4802 breakfasts 4802 Lunches

August 1470 breakfasts 1470 lunches with two more Thursdays to serve.

Health and Wellness report is waived until June 2022

This is because we were not serving the National School Lunch Program this year but using SFSP summer food service program. We will have 3 meetings during the year to go over what is working and what we need to improve.

This School year 2021-22

We will be serving free meals for breakfast and lunch under the SSO seamless summer option.

All meals must be served during the days school is in session only.
