INSTRUCTIONAL SERVICES

Lloy Schaaf

Assistant Superintendent of Teaching and Learning

MEMORANDUM

To: Stanwood-Camano School Board of Directors

Fr: Lloy Schaaf, Ed.D.

Re: First Reading of Revised Policy 2255

Date: November 17, 2020

Attached, please find the revised Policy 2255 for Alternative Learning Experience Courses (ALE).

District officials who are responsible for components of the policy and procedure have reviewed these documents along with support from OSPI.

RECOMMENDATION:

That Revised Student Policy 2255, Alternative Learning Experience Programs, comes before the Board on December 1, 2020, for a Second Reading.

ALTERNATIVE LEARNING EXPERIENCE PROGRAMS-COURSES

The district establishes the Lincoln Hill High School and Saratoga School as alternative learning experience programs, provided on site or over the Internet or by other electronic means, as defined in WAC 392-121-182.

- Every student enrolled in these programs shall have a written individual plan developed in collaboration with the student, the student's parents, and other interested parties. The student's supervisor, who must be a certificated instructional staff or a contractor as defined in WAC 392-121-188, must approve the plan and has primary responsibility and accountability for the plan. The student learning plan must meet the following minimum criteria. The plan must:
 - A. Include a schedule of the duration of the program, including the beginning and ending dates;
 - B. Describe the specific learning goals and performance objectives of the alternative learning experience. This requirement may be met through course syllabi or other detailed descriptions of learning requirements;
 - C. Describe the average number of hours per week that the student will engage in learning activities to accomplish the objectives of the plan;
 - D. Describe how weekly contact requirements will be fulfilled;
 - E. Identify instructional materials essential to successful completion of the learning plan;
 - F. Include a timeline and method for evaluating student progress toward the learning goals and performance objectives specified in the learning plan; and
 - G. Identify whether the alternative learning experience meets one or more of the Washington State Learning Standards defined by the district. High School alternative plans must identify whether the experience meets state and district graduation requirements.
- Annually, during a public meeting, the board will approve the ratio of certificated instructional staff to full time equivalent students enrolled in alternative learning experience programs and courses.
- Student performance will be supervised, monitored, assessed, evaluated and recorded by certificated instructional staff, or by certificated staff of a contractor.
- W. Each student enrolled in an alternative learning experience program shall have direct personal contact with school staff at least weekly, to discuss and evaluate student progress, until completion of the course objectives or the requirements of the learning plan. Direct personal contact means a face-to-face meeting with the student, and if appropriate, with the parent or guardian, and/or through the use of telephone, e-mail, instant messaging, interactive video communication, or other means of digital communication.
- V. Each student's educational progress will be reviewed at least monthly. The results of the reviews shall be shared with the students and with the parents or guardians of students in K-8 programs. If the student is not making progress in more than half of their courses based on professional judgment, an intervention plan will be developed.

W. Optional

Parents or guardians are required to participate in the program on behalf of their children in at least the following ways, or their children may be excluded or removed from the program:

A. The parents or quardians maybe involved in accepting their child's plan;

- B. The parents or guardians must provide or implement those portions of their child's plan for alternative learning experiences that are identified in the plan under the supervision of certificated instructional staff; and
- C. The parents or guardians must meet with certificated instructional staff as prescribed in their child's plan for purposes of evaluating their child's performance and/or receiving instructions on assisting with their child's alternative learning experiences.

If a student's parents or guardians cannot or will not participate in the program, the supervisor of the program may accept another suitable adult who agrees to meet the policy and program requirements set out for parents on behalf of the student.

VI. District Supervision

The district shall designate one or more person(s) responsible for approving specific alternative learning experience programs or courses, monitoring compliance with WAC 392-121-182 and reporting at the end of each school year to the board of directors on the program. The annual report shall contain:

- A. The alternative learning experience student headcount and full-time equivalent enrollment claimed for basic education funding;
- B. A description of how certificated and classified staffs are assigned program management and instructional responsibilities that maximize student learning; including the ratio of certificated instructional staff to full-time equivalent students;
- C. A description of how the written student learning plan is developed and student performance supervised and evaluated by certificated staff;
- D. A description of how the alternative learning experience program supports the district's overall goals for academic achievement, and
- E: Results of any self-evaluation conducted pursuant to WAC 392-121-182(7).
- The district alternative learning program shall satisfy the state board of education requirements for courses of study or equivalencies; and if the program offers credit or a high school diploma, the alternative learning program must meet the minimum high school graduation requirements.

ALTERNATIVE LEARNING EXPERIENCE COURSES

The board authorizes the creation of alternative learning experience (ALE) courses, as defined in the procedure which accompanies this policy.

The district will make available to students, enrolled in an ALE course, educational opportunities designed to meet their individual needs. The district will comply with all program requirements necessary to count an ALE as a course of study and ensure state funding for ALE students.

ALE programs may include the following types of courses as defined in RCW 28A.232.010:

- 1. Online courses (See Policy 2024, Online Learning);
- 2. Remote courses; and
- 3. Site-based courses.

The board will adopt and annually review written policies authorizing ALE courses, including each ALE course and course provider. The policy must designate, by title, one or more school district official(s) responsible for overseeing the district's ALE courses.

The district establishes the following alternative courses(s) provided on site, remote, or online, as defined in WAC 392-550-020:

Please see attached ALE courses:

The school district official(s) responsible for this (these) course(s) is/are:

Assistant Superintendent of Teaching/Learning and Alternative Learning Principal

Reporting Requirements

- 1. Annual Report to the Board of Directors
 - The school district official responsible for overseeing each ALE course will report at least annually to the board. This annual report will include at least the following:
 - 1. <u>Documentation of ALE student headcount and full-time equivalent enrollment claimed for basic education funding;</u>
 - 2. <u>Identification of the overall ratio of certificated instructional staff to full-time equivalent students enrolled in each ALE course; the number of certificated staff in each ALE course:</u>
 - 3. A description of how the course supports the district's overall goals and objectives for student academic achievement; and
- 2. Monthly Report to the Superintendent of Public Instruction

The district must report monthly to the Superintendent of Public Instruction:

- 1. <u>Accurate monthly headcount and full-time equivalent enrollment for students enrolled in</u> alternative learning experiences; and
- 2. <u>Information about the resident and serving districts of such students.</u>
- 3. Regular Submissions to CEDARS

The district must report all required information to the Office of Superintendent of Public Instruction's Comprehensive Education Data and Research System under RCW 28A.300.500, including designating alternative learning experience courses as such when reporting course information to the Comprehensive Education Data and Research System.

4. Annual Report to the Superintendent of Public Instruction

The district must report annually to the Superintendent of Public Instruction:

- 1. <u>the number of certificated instructional staff full-time equivalent assigned to each alternative learning experience program; and</u>
- 2. <u>enrollment of students (separately identified) where ALE instruction is provided entirely under contract pursuant to RCW 28A.150.305 and WAC 392-121-188.</u>
- 3. the costs and purposes of any expenditures made to purchase or contract for instructional or co-curricular experiences and services that are included in an ALE written student learning plan, along with the substantially similar experiences or services made available to students enrolled in the district's regular instructional program.

Assessment Requirements:

All students enrolled in alternative learning experience courses or course work must be assessed at least annually, using, for full-time students, the state assessment for the student's grade level and using any other annual assessments required by the district.

Part-time students whose ALE enrollment is claimed as greater than 0.8 FTE in any one month through the January count date must be included by the district in any required state or federal accountability reporting for that school year. However, part-time students who are either receiving home-based instruction under Chapter 28A.200, RCW or who are enrolled in an approved private school under Chapter 28A.195, RCW are not required to participate in the assessments required under Chapter 28A.655, RCW. Students enrolled in nonresident district alternative learning experience courses or course work who are unable to participate in required annual state assessments at the nonresident district must have the opportunity to participate in such required annual state assessments at the district of physical residence, subject to that district's planned testing schedule. It is the responsibility of the nonresident enrolling district to establish a written agreement with the district of physical residence that facilitates all necessary coordination between the districts and with the student and, where appropriate, the student's parent(s) to fulfill this requirement. Such coordination may include:

- arranging for appropriate assessment materials;
- notifying the student of assessment administration schedules;
- <u>arranging for the forwarding of completed assessment materials to the enrolling district for submission for scoring and reporting; and</u>
- arranging for any allowable testing accommodations, and other steps as may be necessary.

 The agreement may include rates and terms for payment of reasonable fees by the enrolling district to the district of physical residence to cover costs associated with planning for and administering the assessments to students not enrolled in the district of physical residence. Assessment results for students assessed according to these provisions must be included in the enrolling district's accountability measurements, and not in the district of physical residence's accountability measurements.

Valid Justification for Missed Contact:

Valid justifications why a student may miss the weekly contact requirements of ALE for the purpose of truancy include those outlined in Excused absences WAC 392-401-020 and in policy 3122.

Students who drop out of ALE courses:

A school district offering or contracting to offer an alternative learning experience course to a nonresident student must inform the resident school district if the student un-enrolls from the course or is otherwise no longer enrolled.

Procedures:

The superintendent is directed to develop procedures consistent with WAC chapter 392-550 to govern the administration of the district's ALE courses.
